Salt Lake City, Utah 84116

Dear Mr. Daniels:

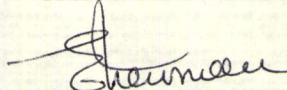

Re: ML 17661 SL-1
Sec. 36, T.30S, R.25E
San Juan County, Utah
DOE/037/001

Pursuant to your request of December 9, 1976 regarding a map of the area associated with our SL-1 mine, I am enclosing a recent survey of the area showing the area utilized. As can be seen from the map, the total area of the pit, roads, and stockpile area is under 2 acres and therefore is exempt from the Utah Mined Lands Reclamation Act.

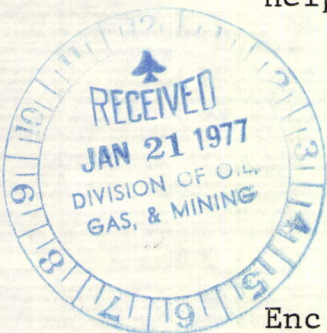

In order to clarify the situation, it should be noted that the SL-1 pit takes off from the first bench of the old Keystone-Wallace (K-W) pit and that a portion of the access road is on this pre-existing bench. Additionally, the waste material stripped off for the SL-1 pit was backfilled into the K-W pit to eliminate surface damage.

We trust that this additional information will be of help to you.

Sincerely yours,
MINERALS RECOVERY CORPORATION
